Dear Larry and Brad:

Enclosed is a new Protocol, now called "Work Plan Supplement", revised per our discussions and agreements on Wednesday, April 26, 1989. We understand that your current intention is to evaluate and approve this document as a supplement to the Work Plan and that we would then reference it as part of our upcoming Consent Decree modifications. That approach is acceptable to us.

We have enclosed both a final and a red-lined version for ease of review. You will note that we have made all changes specifically worked out during the April 26 meeting, as well as some changes and proposals we believe to be consistent with our discussion and necessary to complete the document.

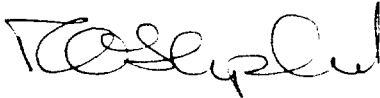

Manville is preparing to proceed with the work on an accelerated schedule. Accordingly, I, Rick Shepherd and Manville personnel are preparing to exert every effort to assure EPA is able to issue its approval letter on Friday, April 29 before Brad leaves, as we agreed during our meeting.
